

ALBERGO TERMINUS

Lungo Lario Trieste, 14 - 22100 COMO - tel 031.329.111 - fax 031.302550 - info@albergoterminus.it

The Albergo Terminus was born out of the complete restructuring of an early 19th Century building with its composite liberty style and its calm and comfortable taste typical of a certain Lombard aristocracy. The careful renovation, which preserved the architectural characteristics of the historical building, was accompanied by absolutely radical reforms in the structures and services in order to provide guests with the highest level of comfort and safety. Nowadays the Terminus Hotel is a landmark for the more refined clientele who can enjoy the hotel's splendid position on the shores of Lake Como, a stone's throw from the Cathedral and the magnificent Cavour Square right in the heart of Como.

Hotel Terminus is situated in an enviable position by any standard; in the heart of Como, a short distance from the Cathedral and not far from numerous Roman, medieval and modern monuments. The hotel is overlooking Lake Como whose shores are rich with villas of remarkable historical and artistic importance. The hotel is a 40 minute drive from Malpensa Airport and a 60 minute drive from Linate Airport in Milan. Agno Airport (Lugano) is about a 50 minute drive from the hotel while it takes at least 90 minutes to reach Orio al Serio (Bergamo). The motorway is a ten minute drive away and Milano and Lugano are about 50 km away. The railway station Ferrovie Nord Milano can be found 200m from the hotel while the Ferrovie dello Stato railway station is about 1km away. The landing stage for the boats is right opposite the hotel and the panoramic cable car for Brunate is about 300m away.

Each bedroom is furnished differently but all the rooms are in keeping with the liberty style of the hotel, with lively colours and prized fabrics, made from the finest of Como silk and everything is looked after down to the smallest detail from the fabrics to the boiserie and stucco work. All of the 40 rooms in the hotel are equipped with the best facilities:

- air conditioning
- colour satellite TV
- pay TV
- mini-bar
- direct telephone line
- internet connection
- hairdryer
- safe deposit box
- sound proof doors and windows

The **Junior Suite** may perhaps be considered the most charming room in the hotel. It has a surface area of 32m² and is elegantly furnished to ensure maximum comfort while at the same time reflecting the sober style of the hotel. There is a spectacular view of Lake Como from its splendid 45m² terrace.

The new **Suite**, which was completed very recently, is beautifully decorated and has a garden view as well as a partial lake view. The suite reveals the subtle elegance of a refined residence and, like all of the other bedrooms, is equipped with every comfort.

The "**Tower room**" is without a doubt the most original room in the hotel. Located in the ancient tower, it is set out on 2 levels with a narrow spiral staircase leading from the lower level to the upper one. It has a private balcony with a splendid view of Lake Como.

The "**Bar delle Terme**", a café restaurant with seating for just 20 people, offers all the warmth and atmosphere of a private club. It is the perfect place for a business lunch or a dinner with friends where you can sample the finest of traditional Italian cuisine. In the good weather the restaurant service is extended to the terrace where you can enjoy your meal by candle-light overlooking the lake amid oleander and jasmine.

The cuisine is in the finest Italian tradition, combining fresh produce with a dash of the chef's creativity without neglecting single courses such as "chicken curry with pilaf rice" or "steak-tartare" which are suitable for quick business lunches.
